Utah.gov Conversion Project
Status Report

Introduction

Per direction of the CIO and with the concurrence of agency IT directors and the ITPSC, the State of Utah has undertaken an email conversion project to move all users from @agency.state.ut.us to a single @utah.gov domain. Phase one of this project is a conversion and creation of unique user id's per naming standards approved by agencies in cooperation with ITS. A phase two project which will consolidate email servers from 250 servers to approximately 20 servers is being developed by ITS and agency email personnel. This plan will be reviewed and presented to agency IT directors for approval and implementation later this summer.

Status

As of June 20th at 5:00 pm, the following post offices had NOT been converted to @utah.gov. (Please note that some of the agencies may be scheduled for the conversion on the evening of the 20th, and/or the weekend of the 22nd). About 19,400 users have been converted. There are a little over 1200 users to be converted. The following are the domains that are still scheduled for conversion:
